Exploring Indo-German trade relationships and market entry strategies for German companies expanding into this economic powerhouse

Germany and India have shared a long history of cooperation and bilateral agreements across diverse fields such as science & technology, research & innovation, energy and manufacturing. That special strategic relationship has seen Germany become India's largest trading partner in Europe and 5th largest globally, with over 1,600 Indo-German collaborations and 600 joint ventures already in place, and no sign of abating.

Vivek Anand, Managing Director Amicorp India and Head of Amicorp Globalization Services and Hanno De Vriend, Global Head of Outsourcing Services, will share insights into some of the key factors behind this strong investment corridor and the opportunities on offer for German companies looking to expand into this exciting marketplace. Vivek and Hanno will discuss best practices in setting up and operating in India, and how best to navigate important issues like legal and compliance matters, tax, incorporation processes, HR issues, and labor/talent acquisition.

Amicorp Globalization Services, German-Indian Round Table (GIRT) e.V. and the Consulate General of India, Frankfurt, invite you to join us for this informative, but relaxed event.

The presentation will be followed by a Q&A round for participants.

A dinner will be served to conclude the event. Participation is free of charge.
